

My love

Written for my sons, Alex and Luke.

*My love is with you, wherever you are,
my love goes wherever you go.*

*Whether you're near, or whether you're far,
my love is with you, wherever you are.*

Use it to lean on, use it to see, use it to try, use it to be.

*Go where you want, be what you are,
my love is there for you, wherever you are.*

*My love is with you, my love is there,
my love will know, my love will care.*

*Whether you're high or whether you're low,
my love will see, my love will know.*

*There's never a day, goes by without you -
in my thoughts, or on my mind.*

*The sun - always comes with you,
there's always a smile in your eyes.*

*My love is with you, my love is there,
my love will know, my love will care.*

*Whether you're high or whether you're low,
my love will see, my love will know.*

*Use it to lean on, use it to see,
use it to try, use it to be.*

My love is with you.
